# WE ASKED – YOU DECIDED

Numerous surveys of rubber stamp makers were carried out to identify 'What do you expect from the ideal stamp?' The valuable results have had a significant impact on the development of the Original Printy4.0.

# WHAT DO YOUR CUSTOMERS WANT TO BUY?

The Original Printy4.0 is not just about impressing rubber stamp makers. It also needs to sell well. That's why we also asked users what, in their opinion, makes a good stamp. There were some interesting responses. And we incorporated these ideas when we developed the Original Trodat Printy4.0.

## OUR RESPONSES TO YOUR REQUESTS:

### 1. THE EASIEST POSSIBLE TEXT PLATE MOUNTING

This is guaranteed by the elevated position of the text plate holder and the alignment grid for securing the text plate.

### 2. EASILY REMOVABLE INDEX WINDOW

The large recessed grip ensures extra-easy opening. The symmetrical cover snaps into place perfectly – whichever edge is at the front or back.

### 3. UNBELIEVABLY SMALL AND LIGHT

The Original Printy4.0 is one of the most compact self-inking stamps in the world.

### 4. EASY TO PERSONALISE

The large printable front side also comes with a white front plate. This provides endless options for logos and individual prints!

## OUR RESPONSES TO CUSTOMER REQUESTS:

### 1. CLEAN INK CARTRIDGE CHANGE

Special grips avoid the user touching the cartridge insert.

Note: All Trodat stamp colours guarantee impressions which will last for decades.

### 2. PRECISE POSITIONING

The crystal clear viewing window ensures that the impressions are precisely aligned. And the transparent edges of the base guarantee ultra-precise alignment!

### 3. UNBELIEVABLY SMALL AND LIGHT

The perfect stamp for on the go, fitting into even the smallest pocket. The innovative IMD technology minimises the chance of scratches and finger prints. For an attractive and sophisticated look which stands the test of time.

### 4. THE FIRST CLIMATE-NEUTRAL STAMP

The Original Printy4.0 is not just unbelievably small and light, but also consists of up to 65%\* post-consumer recycled plastic. This helps to save valuable resources and up to 49%\* CO<sub>2</sub>. And investment in climate protection projects recommended by the WWF® compensates for the inevitable CO<sub>2</sub> footprint.

\* ECO-black and ECO-grey. Lower percentage for other colours. For more information, see [www.environment.trodat.net](http://www.environment.trodat.net)

## IN A NUTSHELL

The Original Printy4.0 stands for: saving time, space and money. With each individual item. And since it adapts perfectly to the requirements of the customer, this Printy is also a real money-spinner!
